Invest in Yourself

The present is a unique time. We have seen the fluctuations of our financial markets and other investments. Many patients at Southern Plastic Surgery have recently come to realize that an investment in yourself can bring guaranteed returns, like those featured recently on Anderson Cooper 360. As spring approaches, investing in oneself is a way to renew your spirit as well as your appearance.

Karen's Testimonial:

Karen described her revitalizing transformation to us this way: "As a registered nurse for 25 years I have worked in numerous hospitals and physician practices and I feel that gives me a unique perspective to evaluate the difference between standard and excellent medical care. From our first pre-surgical interview to the post-surgical follow-up I must say that my experience at Southern Plastic Surgery was outstanding in every regard. After suffering for years from a previously poorly executed cosmetic plastic surgery procedure and worse than inferior results I am now pain free with beautiful results."

Karen's tale is truly a case of newly instilled confidence and long sought after satisfaction. Despite previous disappointments, Dr. Whiteman was able to define the problems and propose an achievable solution that Karen was more than happy with.

Shayne's Testimonial:

Even though Shane participated in regular exercise and competitive soccer, he still has been unable to achieve the changes in physique that he was looking for. He was self conscious about his appearance and began to investigate ways to make positive changes. After researching local plastic surgeons on line, Shane chose Southern Plastic Surgery because of what he described as Dr. Whiteman's impressive before and after photos. After meeting face-to-face Shane said Dr. Whiteman's "kind and enthusiastic manner not only made it very comfortable for me but gave me reassurance that things could work out. I decided to have it done shortly after. It was one of the best decisions I have ever made. His work truly gave me a new outlook on my life and made it possible for me to love my appearance and feel good about myself."

These are but two of many satisfied patients who took steps to reward themselves with cosmetic surgery; they wished to share their experiences with others by expressing it in their own words. When you come to Southern Plastic Surgery our goal is to help you look and feel better so the benefits of investing in your self-image will be worthwhile for life!
